

## Electric Vehicles— Is it time to buy?

**GELD offers a \$400 rebate on a ChargePoint Level 2 Charger along with a \$.09 rate from 11 p.m.–7 a.m.**

For GELD to effectively manage our distribution system, we strongly encourage customers to consider installing a Wi-Fi equipped “LEVEL 2” charger that GELD can communicate with. A “good” Wi-Fi equipped charger costs about \$599.00. To encourage the use of these chargers, GELD will provide a \$400 rebate towards their purchase and provide a special vehicle charging rate. These chargers would be pre-programmed by GELD to operate as a “LEVEL 1” charger during non-peak times. Using the Wi-Fi connection, GELD would be able to schedule charging from 11 p.m.–7 a.m. at a rate of \$.09 (discount rate) per kilowatt-hour. Even electric vehicles with large batteries and long range would be fully charged by the morning.

The rebate for these chargers is intended to keep the cost of the Wi-Fi “LEVEL 2” chargers less expensive than a standard “LEVEL 2” charger purchased online; so, the value of this rebate may change as the market changes. Our rebate does not include the cost of installation. A licensed electrician is required to install the “LEVEL 2” charger.

Please contact GELD at 978-448-1150 if you would like to participate in this rebate offer and special electric vehicle rate. MMWEC, our wholesale energy agent will acquire the Wi-Fi “LEVEL 2” charger through ChargePoint (on your behalf) and it will be pre-programmed to work with GELD’s electric vehicle rate.

## Be prepared for emergencies and power outages

Even with the best planning, occasional power outages do occur. Prepare now so you’ll be ready in a hurry if the unexpected happens:

Make a storm kit with things you will need if the power goes out. Keep enough supplies for at least three days. Include a battery-powered radio and a flashlight, along with a supply of batteries to run them. Also gather

nonperishable food, a manual can-opener, bottled water, matches and candles, personal medications, and a first-aid kit. Don’t forget baby formula and pet food, if needed.

You can find detailed information about preparing for the unexpected online at <https://www.fema.gov/>. Click on Search on the home page and enter “How to Prepare” to find an in-depth guide to citizen preparedness.

## Ride and Drive— See Chevy Bolt offer for GELD customers on reverse side.

An Electric Vehicle test drive at the GELD facility has been arranged with Quirk Chevrolet of Braintree on Monday, October 22, 2018 from 3–6 p.m. Stop by and try one out—it may surprise you.
